SUMMARY

I am a undergraduate student pursuing a degree in Electronics and Communications Engineering at KL University. My greatest strength lies in my passion for discovering new technologies and finding ways to enhance them. I thrive on facing new challenges and staying abreast of developments in the field. My commitment to continuous education drives me to improve both personally and professionally. In addition to my academic pursuits, I possess strong skills in C programming, as well as proficiency in HTML and CSS. I am eager to engage in collaborations, mentorships, and other opportunities that will further expand my knowledge and skills to a higher level.

PROJECTS

Water Quality Monitoring System

04/2024 - 05/2024 KL University

Short summary

- Developed a Water Quality Monitoring System that employs sensors to measure various parameters such as pH levels, turbidity, and temperature in real-time. The system provides accurate data collection and analysis, enabling efficient monitoring of water quality in different environments.
